

# **SUPARCO's Products and Services**

SUPARCO, through its institute of Space Technology, is offering several undergraduate and postgraduate programs including degrees in aerospace engineering global navigation satellite systems, and Astrophysics. Complete details are available at [www.ist.edu.pk](http://www.ist.edu.pk), which may be promoted through the Mission.

SUPARCO has also listed its products and services on its website, [www.suparco.gov.pk](http://www.suparco.gov.pk) from which further relevant information may be obtained including SUPARCO's training courses on areas including Satellite Remote Sensing and GIS, Space Weather and Land Cover Classification system.

## **Institute of Space Technology (IST) - Degree Education Programs**

### **1. Undergraduate Programs**

- a. Aerospace Engineering
- b. Electrical Engineering
- c. Avionics Engineering
- d. Mechanical Engineering
- e. Materials Science & Engineering
- f. Space Science (Non-Engineering Program)
- g. Mathematics (Non-Engineering Program)

### **2. Graduate Programs**

- a. **For MS**
  - i. Aerospace Engineering
  - ii. Electrical Engineering
  - iii. Mechanical Engineering
  - iv. Materials Science & Engineering

- v. Global navigation Satellite System
- b. **For PhD**
  - i. Aerospace Engineering
  - ii. Electrical Engineering
  - iii. Mechanical Engineering
  - iv. Material Science & Engineering
  - v. Global navigation Satellite Systems
  - vi. Mathematics
  - vii. Astronomy and Astrophysics
